or poly bag

Trolley

Dust-free disposal thanks to the innovative Longopac® system

- Vacuum in proven, stable Ruwac quality as a pre-separator or complete solution
- Quickly exchange the Longopac® while the machine is running
- Dust-free work, since the dust is trapped directly in the Longopac®
- Longopac® fill quantity before exchange individually adaptable
- Developed for contamination-free disposal

Longopac® hose exchange in just 30 seconds:

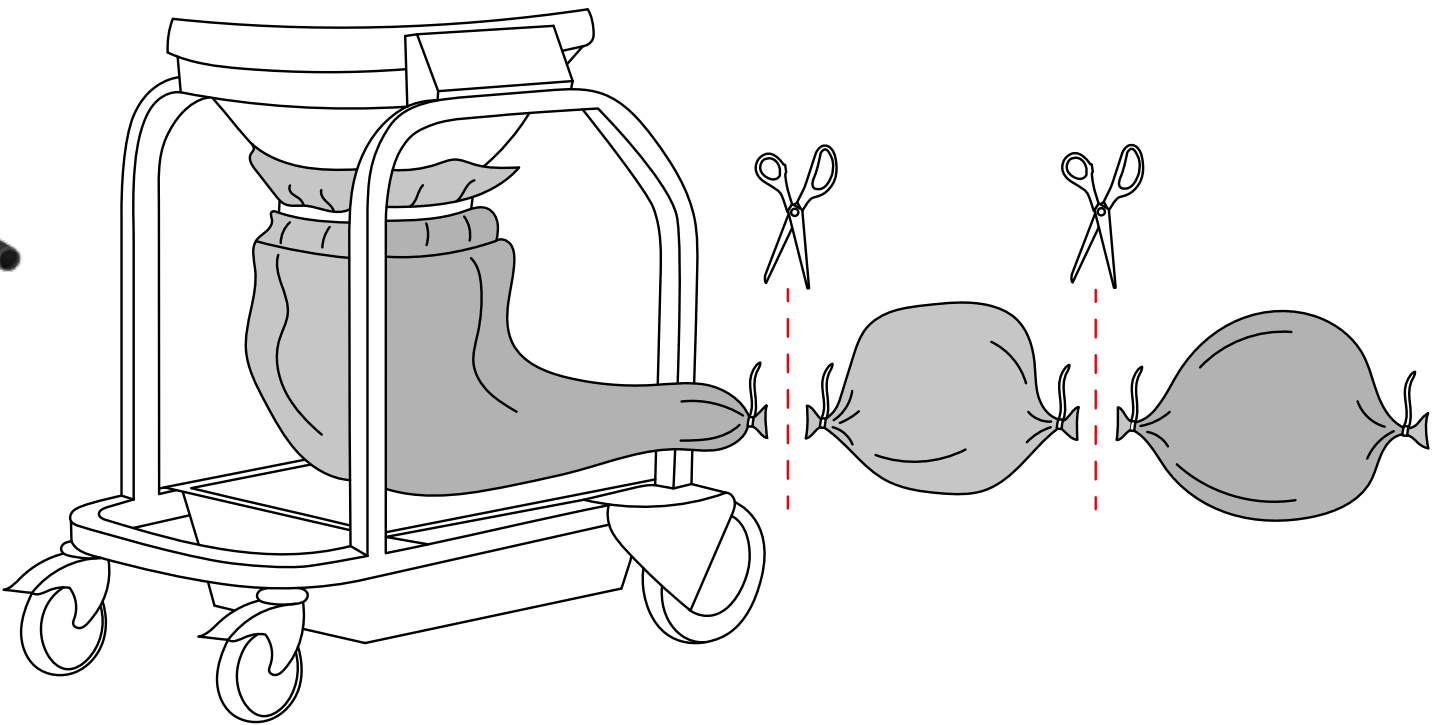

1. Insert the Longopac® system. Connect at the end using cable ties.

2. Pull the Longopac® hose while the machine is running and secure using cable ties.

3. Dispose of the full sack, and continue with 1.

Variant with poly bag
